H2231: NONHEALTH PROFESSIONS; OCCUPATIONS; REGULATIONS

Establishes a rebuttable presumption that the public is sufficiently protected from unregulated practice by market competition and private remedies, including third-party or consumer-created ratings and reviews and private certification. For a state agency that administers an occupational regulation, the sunset review report from a committee of reference (COR) is required to include a recommendation that the Legislature repeal the occupational license, convert the license to a less restrictive regulation, or instruct the state agency to seek legislation or adopt rules to reflect the COR's recommendation to impose less restrictive regulations or redefine the scope of practice.

For the purpose of use taxes and municipal transaction privilege taxes, computer software that is not custom computer programming is deemed to be tangible personal property, regardless of the method by which title, possession or right to use the software is transferred to the user, and is subject to tax. H2702: TPT; MARKETPLACE FACILITATORS; NEXUS

Establishes the marketplace facilitator classification of transaction privilege taxes (TPT), which is comprised of the business of facilitating retail sales as a "marketplace facilitator" (defined). The tax base for the marketplace facilitator classification is the gross proceeds of sales or gross income from all sales the marketplace facilitator facilitates on behalf of "marketplace sellers" (defined) sourced to Arizona if the marketplace seller is not an affiliate of the marketplace facilitator. All sales that a marketplace facilitator facilitates on behalf of a marketplace seller must be sourced to the purchaser's location in Arizona. A marketplace facilitator is required to pay TPT on all sales facilitated by the marketplace facilitator and sourced to Arizona regardless of whether the marketplace seller for whom sales are facilitated is required to be registered with the Department of Revenue or would have been required to pay TPT had the sale not been facilitated by the marketplace facilitator. Any person that conducts business in an activity classified under TPT classifications with purchasers in Arizona is engaging or continuing in business in Arizona, is subject to and is required to pay TPT if the person meets any of the following criteria in the previous or current calendar year: the gross proceeds of sales or gross income derived from the person's transactions with purchasers in Arizona is more than \$100,000, the person engages in at least 200 separate transactions with purchasers in Arizona, the gross proceeds of sales or gross income derived from a marketplace facilitator's transactions with purchasers in Arizona on its own behalf or on behalf of at least one marketplace seller is more than \$100,000, or the marketplace facilitator engages in at least 200 separate transactions with purchasers in Arizona on its own behalf or on behalf of at least one marketplace seller. For the purposes of determining whether a person meets any of these criteria, all members of a person's affiliated group must be aggregated. Establishes provisions governing a marketplace facilitator's liability for transaction privilege taxes and allows for liability relief in specified percentages, which are phased out between 2019 and 2026. The list of exemptions from the retail classification of TPT is expanded to include sales of tangible personal property by a marketplace seller, if the sale is facilitated by a marketplace facilitator and the marketplace seller has received documentation from the marketplace facilitator that the marketplace facilitator has paid the applicable tax and will remit the tax to the Department of Revenue.

Repeals the individual and corporate income tax credits for construction costs of qualified environmental technology facilities and for qualifying investment and employment in expanding or locating a qualified facility in Arizona. The repeal of these income tax credits does not affect the continuing validity of any amount of the credit carried forward from previous taxable years for application against

subsequent tax liabilities as allowed by prior law. Due to a potential increase in state revenue, this legislation requires the affirmative vote of at least 2/3 of the members of each house of the Legislature for passage, and becomes effective on signature of the Governor.

S1080: TPT; USE TAX; EDUCATION

Establishes a required distribution formula for all monies collected from a new article in the state Constitution. Requires monies generated from the tax to be paid in monthly installments as follows: 73 percent to the Classroom Site Fund, 22 percent to the Arizona Board of Regents to be distributed proportionally to each university based on the number of students who receive in-state tuition to maintain an in-state tuition rate that is consistent with the state Constitutional requirement for tuition to be as nearly free as possible, and 5 percent for community college trade and workforce development programs. Repeals the additional transaction privilege tax rate increment of 0.6 percent imposed from July 1, 2022 through June 30, 2041 that would have been distributed for specified education purposes, and repeals statute specifying the distribution of those revenues. Repeals the individual income tax credit for increased transaction privilege or excise taxes paid for education. Modifies the purposes for which monies from the Classroom Site Fund must be spent to remove class size reduction and add voluntary full-day kindergarten, the cost of additional school days, student support services and school resource officers. Deletes the requirement for school districts and charter schools to allocate 40 percent of the monies received from the Classroom Site Fund for teacher compensation increases based on performance and employment related expenses, 20 percent of the monies for teacher base salary increases and employment related expenses, and 40 percent of the monies for maintenance and operation purposes. Conditionally enacted effective July 1, 2021 if the state Constitution is amended by a vote of the people at the 2020 general election by passage of an unspecified House Concurrent Resolution (blank in original). S1227: COLORADO RIVER DROUGHT CONTINGENCY AMENDMENTS

Establishes the Arizona System Conservation Fund to be administered by the Director of the Department of Water Resources (Director), and appropriates \$30 million from the general fund in FY2019-20 to the Fund. The Director is authorized to spend monies from the Fund to contract with Colorado River water users in Arizona that hold entitlements to Colorado River water under the decree in Arizona v. California to forgo water deliveries or diversions for the purpose of creating system conservation. System conservation created through the use of the Fund is required to provide for Colorado River water to be conserved in Lake Mead through a verified reduction in existing consumptive use in order to decrease the likelihood of lake elevations dropping to levels that could result in reductions to Arizona's Colorado River allocation. Beginning July 1, 2021 and each July 1 after, the Director is required to submit a report to the Governor and the Legislature on expenditures from the Fund during the previous fiscal year and the volume of water that was conserved in Lake Mead. The Fund self-repeals April 1, 2027. Prohibits a water banking fee from being levied in the Pinal Active Management Area (AMA) during calendar years 2020 through 2026. In the Pinal AMA during calendar years 2020 through 2026, the Director is required to set the annual groundwater withdrawal fee in an amount of up to \$2.50 per acre-foot per year for groundwater and irrigation efficiency projects. Monies from this fee are required to be used only to finance projects for the construction and rehabilitation of wells and related infrastructure for the withdrawal and efficient delivery of groundwater by irrigation districts in the Pinal AMA. Monies from this fee are deposited in the newly established Temporary Groundwater and Irrigation Efficiency Projects Fund (TGIEP Fund), and requirements for the TGIEP Fund are established. Appropriates \$7 million from the general fund in FY2018-19 to the TGIEP Fund. The TGIEP Fund self-repeals April 1, 2028. Establishes requirements for recovery of water that was effluent stored at a managed underground storage facility that qualifies as an "existing effluent managed underground storage facility" (defined) that has not been designated as a facility that could add value to a national park, national monument or state park. Long-term water storage credits may be used to demonstrate an assured water supply or an adequate water supply only if the managed underground storage facility qualifies as an existing effluent managed underground storage facility and the long-term storage credits were accrued before the effective date of this legislation. By December 31, 2019, the Arizona Water Banking Authority is authorized to enter into agreements to exchange long-term water storage credits accrued or purchased in one AMA with monies collected from specified groundwater withdrawal fees for long-term storage credits held by other persons in another AMA, on request of the Director, if the Director determines that the exchange is beneficial to water management in Arizona and that the exchange will not substantially impair the Authority's ability to meet its firming obligation to firm Indian settlement water. The term of any agreement entered into under this authorization is prohibited from extending beyond December 31, 2026. The Authority is permitted to distribute or extinguish long-term storage credits obtained by exchange. An exchange of long-term storage credits under this authorization is exempt from any fee established by the Dept for an assignment of long-term storage credits. A \$2 million appropriation in FY2018-19 is redirected from the Dept to the TGIEP Fund, and a \$2 million appropriation in FY2019-20 is redirected from the Dept to the Augmentation and Conservation Assistance Fund. Requires the Director to report to the Governor and the Legislature on agreements related to drought contingency plans. Contains a legislative intent section. Severability clause. Emergency clause.
