**H2441: INSURANCE CLAIMS; ASSIGNMENTS; PAYMENTS; REQUIREMENTS**

After a property loss occurs in which the loss is estimated to be less than \$1,500, an assignment of a property loss claim is valid only if a list of specified conditions are met. If a property claim that originally was estimated to be less than \$1,500 is later determined to be valued at \$1,500 or more, the assignee is required to have the insured execute a new assignment agreement in order for the assignment agreement to remain valid and enforceable. After a property loss occurs in which the loss is estimated to be \$1,500 or more, an assignment

of a property loss claim is valid only if a separate list of specified conditions are met. An assignee's acceptance of an assignment agreement constitutes a waiver by the assignee and the assignee's subcontractors of claims against the insured assignor for payments that arise from the agreement that are more than the insured assignor's deductible or other cost sharing requirements under the insurance policy or charges for services or repairs requested by the insured assignor that are beyond the scope of the necessary services or repairs. The amount of damages an assignee may recover in litigation against an insurer is the fair market value of the services or repairs performed that are covered by the insurance policy. If an insurer enters into a contract with a service provider to provide services or repairs arising out of a property claim and a conflict exists between the contract and these requirements, the terms of the contract between the insurer and the service provider control.

**H2472: WORKERS' COMPENSATION; HEART-RELATED CASES; PRESUMPTION**

The presumption that a heart-related, perivascular or pulmonary injury, illness or death of a firefighter is an occupational disease for the purpose of workers' compensation under specified circumstances is conclusive and irrebuttable if there is no evidence that exposure to tobacco products is a substantial contributing cause. Previously, the presumption could be rebutted by a preponderance of the evidence that there was a specific cause of the illness or death other than the employment.

**H2481: PROPERTY TAX OMNIBUS**

Various changes to statutes relating to property taxes. If a county treasurer determines that any of the circumstances for abating personal property taxes exist, the county treasurer is required to grant appropriate relief, and the relief is no longer subject to the approval of the county board of supervisors. A certificate of removal and abatement of tax is final and effective on the date the board of supervisors receives notice from the county treasurer. Taxes due on mobile homes must be collected pursuant to mobile home property tax statutes instead of by seizure and sale in the same manner as taxes due on personal property. For a mobile home for which an affidavit of affixture has not been recorded and that is not placed on the real property roll, a process is established for the county treasurer to issue a tax bill warrant giving the county sheriff authority to seize the property, which the county treasurer must sell at public auction. The owner of the mobile home is permitted to redeem the property at any time before the actual sale by paying to the county treasurer the taxes, interest and costs or by making a partial payment and entering into a payment plan with the county treasurer. The right to redeem terminates after the property is sold, unless the mobile home was wrongfully seized or sold. If the county treasurer issues a tax bill warrant for a mobile home that is in the possession of a person other than the person listed on the tax bill warrant and who presents evidence of having purchased the mobile home from the person listed on the tax bill warrant after the taxes became delinquent, the sheriff is prohibited from seizing the property to collect the previous owner's delinquent taxes on the mobile home. The county treasurer may continue to collect the

delinquent taxes on the mobile home from the previous owner as provided by law.

## H2657: MARIJUANA; ADULT USE; SALE; REGULATION

Beginning January 1, 2022, the possession, use, purchase or transport of one ounce or less of marijuana or marijuana accessories by a person who is at least 21 years of age is lawful and is not a criminal or civil offense under the laws of the state or any political subdivision. Beginning January 1, 2022, a person who consumes marijuana in a public place or transports marijuana that is in the original packaging that has had its seal broken or the contents of which have been partially removed is guilty of a class 2 (mid-level) misdemeanor. Does not restrict the rights of employers to maintain a drug and an alcohol-free workplace or affect the ability of employers to have workplace policies

restricting the use of marijuana by employees or prospective employees. The court is required to expunge the record of a person's arrest, conviction and sentence for possessing marijuana in violation of the prohibition on the possession or use of marijuana, which ranges from a class 6 (lowest) to a class 2 (second highest) felony depending on the amount of marijuana. A person whose record is expunged must be treated in all respects as if the person was never arrested, convicted or sentenced. Within one year after the effective date of this legislation, all law enforcement agencies in Arizona and the clerk of the court in each county are required to identify and destroy all records in the entity's possession or control that are related to a person's arrest, conviction and sentence for possessing marijuana. A person whose conviction is vacated may state, in all instances, that the person has never been arrested for, charged with or convicted of the crime, including in response to questions on employment, housing, financial aid or loan applications. Establishes a 7-member State Marijuana Board within the Department of Liquor Licenses and Control (DLLC), and establishes the powers and duties of the Board. DLLC is authorized to issue up to 500 retail marijuana store registrations over a period of five years. A liquor store licensee or a registered nonprofit medical marijuana dispensary may apply to DLLC for a retail marijuana store registration. Local jurisdictions are authorized to enact specified restrictions on retail marijuana stores, including reasonable zoning regulations and limiting the number of retail marijuana stores. Municipalities are authorized to levy a tax on the privilege of engaging in the business of selling marijuana at retail within the municipality's corporate limits and to impose a permit tax or fee. Establishes requirements for retail marijuana stores located within a liquor store. The Department of Health Services (DHS) is required to issue up to 285 registration cards for cultivating and manufacturing marijuana and marijuana products to be sold to marijuana wholesalers, and requirements for card holders are established. DHS is required to provide testing or contract with independent third-party laboratories for testing of marijuana products. DHS is required to annually inspect a marijuana cultivator and manufacturer. The Department of Revenue (DOR) is required to license wholesalers of marijuana and marijuana products, and to adopt rules prescribing the qualifications, bond requirements and any other requirements for a marijuana wholesaler. Levies a tax of 16 percent of the wholesale price on marijuana and marijuana products, and requires DOR to issue tax stamps for these items. Much more. Due to a potential increase in state revenue, this legislation requires the affirmative vote of at least 2/3 of the members of each house of the Legislature for passage, and becomes effective on signature of the Governor. Due to voter protection, some sections of this legislation require the affirmative vote of at least 3/4 of the members of each house of the Legislature for passage.

## H2818: ADJUDICATION; SUBFLOW WELLS; CLAIM; PRIORITY

In a watershed that is subject to the jurisdiction of a court, a person is authorized to apply for a right to withdraw appropriable surface water from a well for beneficial use if a list of specified conditions apply, including that the

well existed in the boundaries of the subflow zone when the court entered the final judgment establishing its boundaries and that the well has historically withdrawn water for any beneficial use. The priority date of this water right is the date that water withdrawn from the well was first put to beneficial use. A person whose well has been determined to exist in a subflow zone is authorized to file a new or amended statement of claimant and a notice of filing with the court. Within a reasonable time after the filing, the master is required to determine whether there is clear and convincing evidence that the well that is the subject of the statement of claimant is withdrawing appropriable surface water, determine what proportion of the water withdrawn by the well is surface water, and recommend water rights attributes for the well. On receipt of the master's report, the court is required to enter a judgment that determines the extent of the appropriable surface water right in the well and the priority date of the water right.

The possession, use, purchase or transport of one ounce or less of marijuana or up to six marijuana plants by a person who is at least 21 years of age is lawful

and is not a criminal or civil offense under the laws of the state or any locality. Does not restrict the rights of employers to maintain a drug and an alcohol-free workplace or affect the ability of employers to have workplace policies restricting the use of marijuana by employees or prospective employees. Does not allow any person to smoke marijuana in a public place or open space or to consume marijuana or marijuana products while driving. Establishes penalties for possessing an amount of marijuana greater than the amount allowed and for a person who is under 21 years of age and who possesses or consumes marijuana. The Department of Health Services is required to adopt rules to regulate marijuana, marijuana products, marijuana establishments and marijuana testing facilities. The rules must include requirements for licensing, testing, labeling, packaging, identification to verify a consumer's age, and the potency of edible marijuana products that may be sold to consumers. Requires marijuana facility agents to be registered with the Dept before working at a marijuana establishment or testing facility. Establishes the Adult Use Marijuana Fund to be used to pay the actual costs incurred by the Dept to implement this legislation. Establishes a distribution formula for additional monies in the Fund, including child care programs, behavioral health programs, and education. Marijuana and marijuana products are tangible personal property subject to transaction privilege taxes in the retail classification and use tax. **S1059: TPT; USE TAX; EDUCATION**

Establishes a required distribution formula for all monies collected from a new article in the state Constitution or from the additional transaction privilege tax rate increment of 0.6 percent imposed from July 1, 2022 through June 30, 2041. Requires monies generated from either tax to be paid in monthly installments as follows: 82 percent to the Classroom Site Fund, except that \$86.28 million annually must be paid in monthly installments to the Department of Education to fund Basic State Aid for additional school days and \$7.8 million annually must be paid in monthly installments to the Dept for school safety; 13.75 percent to the Arizona Board of Regents to be distributed proportionally to each university based on the number of students who receive in-state tuition to subsidize resident student tuition costs, with \$86.47 million of that 13.75 percent being distributed to the Technology and Research Initiative Fund; and 4.25 percent for community college trade and workforce development programs and provisional community colleges. These monies are prohibited from supplanting, replacing or causing a reduction in other school district, charter school, community college or university funding sources. Modifies the purposes for which monies from the Classroom Site Fund must be spent to remove teacher liability insurance premiums and add voluntary full-day kindergarten, "student support services" (defined), tutoring, character education, school safety, career and technical education, school improvement and transportation. Deletes the requirement for school districts and charter schools to allocate 40 percent of the monies received from the Classroom Site Fund for teacher compensation increases based on performance and employment related expenses, 20 percent of the monies for teacher base salary increases and employment related expenses, and 40 percent of the monies for maintenance and operation purposes. Repeals the additional transaction privilege tax rate increment of 0.6 percent imposed from July 1, 2022 through June 30, 2041 that would have been distributed for specified education purposes, and repeals statute specifying the distribution of those revenues. Sections applicable to monies collected from a new article in the state Constitution and repealing the additional TPT rate increment are conditionally enacted effective July 1, 2021 if the state Constitution is amended by a vote of the people at the 2020 general election by passage of Senate Concurrent Resolution 1002. Sections modifying the distribution of monies from the additional TPT rate increment are conditionally enacted effective July 1, 2021 if the state Constitution is not amended by a vote of the people at the 2020 general election by passage of Senate Concurrent Resolution 1002. **S1557: ANNUITY TRANSACTIONS; REQUIREMENTS**

Numerous changes to statutes relating to annuity transactions. Annuity transaction statutes do not create a private cause of action for a violation or subject an insurance producer to civil liability under the best interest standard of care or under standards that govern the conduct of a fiduciary or fiduciary relationship. The authority to enforce compliance with these statutes is vested exclusively with the Director of the Department of Insurance and Financial Institutions. Statute governing the duties of insurers and producers relating to annuity transactions are repealed and replaced. When a producer makes a recommendation of an annuity, the producer is required to act in the best interest of the consumer under the circumstances known at the time the recommendation is made, without placing the producer's or the insurer's financial interest ahead of the consumer's interest. In making a recommendation, the producer is required to exercise reasonable diligence, care and skill to know the consumer's financial situation, insurance needs and financial objectives, understand the available recommendation options, and have a reasonable basis to believe that the recommended option effectively addresses the consumer's financial situation. Establishes disclosure requirements and record keeping requirements for annuity transactions. An insurer is prohibited from issuing an annuity recommended to a consumer unless there is a reasonable basis to believe the annuity would effectively address the particular consumer's financial situation, insurance needs and financial objectives based on the consumer's "consumer profile information" (defined). An insurance producer who, before the effective date of this legislation, has completed an annuity training course is required to complete, within six months after the effective date of this act, either a new four credit hour annuity training course approved by the Dept after the effective date or an additional onetime one credit hour annuity training course approved by the Dept on appropriate sales practices, replacement and disclosure requirements as established by this legislation.
